Date: 09/02/2010 11:41 AM
Subject: Fw: KMCB Contaminated Top Soil

Hi (b) (6), (b) (7) ,

We got a call from Congressman (b) (6), office on looking into this situation. Seems a construction company owner is saying that he was made to spread possible contaminated top soil at Kaneohe Marine Corps Base. If you look at the attachement, it includes a letter from (b) (6) to the Navy and (b) (6), (b) (7)(C) original letter to (b) (6) .

From what's in (b) (6), (b) (7) letter, the pesticide in question, chlordane was originally and at the time legally applied to the soil, but (b) (6), point seems to be that the soil was distributed to different locations.

I spoke with (b) (6) from (b) (6), staff and told him it would work better if we looked into this and the reported back to him with anything we know, as opposed to (b) (6), or the construction company owner (b) (6), (b) (7) trying to speak to EPA Admin. (b) (6), (b) (7). (b) (6) agreed, so I've asked State HEER if they know of this also.

So any info we can provide would be great.

Thanks!

(b) (6)

Subject: Fw: KMCB Contaminated Top Soil

Hi (b) (6), (b) (7) ,

We got a call from Congressman (b) (6), office on looking into this situation. Seems a construction company owner is saying that he was made to spread possible contaminated top soil at Kaneohe Marine Corps Base. If you look at the attachement, it includes a letter from (b) (6) to the Navy and (b) (6), (b) (7)(C) original letter to (b) (6) .

From what's in (b) (6), (b) (7) letter, the pesticide in question, chlordane was originally and at the time legally applied to the soil, but (b) (6), point seems to be that the soil was distributed to different locations.

I spoke with (b) (6) from (b) (6), staff and told him it would work better if we looked into this and the reported back to him with anything we know, as opposed to (b) (6), or the construction company owner (b) (6), (b) (7) trying to speak to EPA Admin. (b) (6), . (b) (6) agreed, so I've asked State HEER if they know of this also.

So any info we can provide would be great.

Thanks!

(b) (6)

Subject: KMCB Contaminated Top Soil

Good morning (b) (6), (b) (7)(C) :

Thank you for speaking with me this morning regarding (b) (6), (b) (7)(C) allegations that contaminated top soil was used during construction of a military housing project. Below you can find both (b) (6), (b) (7)(C) and construction company President (b) (6), (b) (7)(C) contact info. In addition, I attached correspondence form (b) (6), (b) (7)(C) which summarizes how and what contaminants may have been possibly spread.

If you have any further questions please don't hesitate to contact me.

Mahalo,

Subject: Re: KMCB Update

Hi (b) (6), (b) (7)(C)

The President of the construction company, (b) (6), (b) (7)(C), that was forced to spread the contaminated topsoil throughout the surface of the housing project will be in Washington DC from 9/3 to 9/10 or so. He would like to meet with the EPA Head, (b) (6), (b) (7)(C), to discuss the chlordane issue at Kaneohe Marine Base. Would it be possible for Congressman (b) (6), (b) (7)(C) to assist us in getting a meeting with Her? And would the Congressman or a representative from his office be able to join (b) (6), (b) (7)(C) in meeting with her? We believe we have a better chance of getting a meeting with her if we had assistance from the Congressman.

He can meet on Sept 3rd or the 6th or any of the other days.

(b) (6), (b) (7)(C) can be reached at (b) (6), (b) (7)(C). I can also be contacted to assist with any information needed or coordination. I can be reached at (b) (6), (b) (7)(C)

Thank You,

(b) (6), (b) (7)(C)
